## COMPANY NEWS

### **NetPower Asia Expands Global Hotspot Roaming With MGP Networks**

12<sup>th</sup> November 2004 – Singapore. NetPower Asia and MGP Networks have signed an agreement that will enable members of Netpower's *NetROAM™* solution to roam globally at over 3900 MGP Networks hotspots in 15 countries.

*NetROAM™* is a Global Roaming and Clearinghouse Solution allowing users to roam across a multitude of member networks whilst receiving one bill from their home based service provider.

This landmark agreement will not only benefit *NetROAM™* members, but also MGP Networks customers who will be able roam across *NetROAM™* member networks.

#### **About MGP Networks**

Founded in 1998, MGP Networks Pte Ltd (MGP) was previously an investment company actively involved in the telecommunications industry of Singapore. MGP started venturing in the business of Global Internet access in the first quarter of year 2001 and has since focused its efforts on providing ISP's worldwide a reliable Global Internet access service. Portfolio of services includes Dialup Roaming Internet connection, WLAN Roaming Internet Connection and GPRS Roaming Internet Connection. MGP partners include large ISPs such as Nifty Inc of Japan, Singapore Telecommunications Ltd and Dacom Chollian of Korea, etc.

#### **About NetPower Asia**

NetPower Asia delivers contemporary and refreshing solutions to users of the Internet. Established in April 2004, the company represents technology brands that are expanding into Asia. Through joint venture agreements and/or exclusive distributorship arrangements, our aim is to strategically take working software-based solutions to the Asian market.

NetPower Network Solutions all share a single powerful medium, The Internet. NetPower has a Wireless Global Roaming Solution for Internet Access, an Anti-Spam Solution for E-mails, an Intelligent Search Engine for retrieving information and increasing traffic to websites, and, to take e-mailing one step further, Video E-mail. NetPower also represents one of Australia's fastest growing SMS solution providers.

Our solutions have multiple applications and are scaleable and flexible to suit a specific immediate need or a range of requirements, short and long term.
